Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 February 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Detailed Action

This is the second Office Action corresponding to amendment filed Feb 16, 2006. The application contains 12 claims. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Specification

The specification does not follow the layout preferred by the Office. This objection was somehow left out in the former Office Action, the examiner apologizes.

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)

(f) BACKGROUND OF THE INVENTION.

(1) Field of the Invention.

(2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.

(g) BRIEF SUMMARY OF THE INVENTION.

(h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).

(i) DETAILED DESCRIPTION OF THE INVENTION.

(j) CLAIM OR CLAIMS (commencing on a separate sheet).

(k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).

(l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

The present specification also shows duplicate pages. The examiner believes it would be better to cancel the instant specification and provide a substitute specification. No new matter is permitted.

Claim Rejections - 35 USC § 102

Claims 1, 6 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by European Patent No 517,206.

The European Patent discloses a chair assembly comprising a ring (104) and spokes extending from the ring and defined by two halves (92 and 96, see Fig 11). A column (14) is inserted into the ring. The assembly can be formed as recited in the method claim.

Claim Rejections - 35 USC § 103

Claims 3-5, 8, 10 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over the European Patent.

The European Patent shows the spokes being secured by a friction fit but other securing means are well known in the art, and the specific engaging means used is considered as an obvious matter of engineering choice. The shape of the spoke is considered as an obvious matter of engineering choice to those skilled in the art for several reasons, for example aesthetics. As to claim 12, the European Patent does not disclose the device being made of plastic (even though it appears to be made of plastic) but since plastic is a commonly used in the making of chair assembly, its use is considered a matter of expediency. The assembly can be formed as recited in the method claims.

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over the European Patent and Davis et al. (Pat No 5,332,188).

The patent to Davis et al. shows the use of a rib (23) as a reinforcement means. It would have been obvious to one skilled in the art at the time the invention was made to have provided the device shown by the European Patent with a rib along any desired area as shown by Davis et al. to reinforce the device.

Allowable Subject Matter

Claims 2 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RAMON O. RAMIREZ whose telephone number is (571) 272-6821. The examiner can normally be reached on MONDAY-FRIDAY, IST FRIDAY OFF.
